Jet Composites, Inc.  
300 West 100 South  
Bluffton, Indiana 46714

Re: 179-12103  
First Significant Permit Modification to  
Part 70 No.: T 179-7647-00013

Dear Mr. Martin:

Jet Composites, Inc. was issued a permit on June 29, 1999 for a facility that performs molding, laminating and coating fiberglass for automotive topliners and headliners. The source requested changes to the permit on March 16, 2000. Upon shutdown of operations, Jet Composites requested all reporting be removed from the permit, based on the non-operational status of the source, however, Jet Composites wishes to keep the permit active. The following issues were addressed in the permit modification:

- (1) The Quarterly Compliance Monitoring Report required by Condition C.19 shall be suspended until operation resumes. A notification 30 days prior to startup shall be submitted to the following address:  
  
Indiana Department of Environmental Management  
Compliance Data Section, Office of Air Management  
100 North Senate Avenue, P.O. Box 6015  
Indianapolis, Indiana 46206-6015
- (2) The Annual Compliance Certification (Condition B.11) and the Annual Emission Statement (Condition C.16) shall continue to be submitted to the IDEM.
- (3) The following changes to remove the reporting conditions in both Sections D.1 and D.2 have been made based on nonapplicability:

~~D.1.8 Reporting Requirements~~

~~A quarterly summary of the information to document compliance with Condition D.1.1 shall be submitted to the address listed in Section C - General Reporting Requirements, of this permit, using the reporting forms located at the end of this permit, or their equivalent, within thirty (30) days after the end of the quarter being reported.~~

~~D.2.6 Reporting Requirements~~

~~A quarterly summary of the information to document compliance with Condition D.2.1 shall be submitted to the address listed in Section C - General Reporting Requirements, of this permit, using the reporting forms located at the end of this permit, or their equivalent, within thirty (30) days after the end of the quarter being reported.~~

The permit change request was evaluated and considered a significant modification, based on reduction in reporting frequency from Quarterly reporting to Annual reporting. Pursuant to the provisions

Jet Composites, Inc.  
Bluffton, Indiana  
Permit Reviewer: Kimberly Titzer

of 326 IAC 2-7-12 a significant permit modification to this permit is hereby approved. All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this modification and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Kimberly Titzer, OAM, 100 North Senate Avenue, P.O. Box 6015, Indianapolis, Indiana, 46206-6015, or call at (800) 451-6027, press 0 and ask for extension (3-8396), or dial (317) 233-8396.

Sincerely,

Paul Dubenetzky, Chief  
Permits Branch  
Office of Air Management

# **PART 70 OPERATING PERMIT**

## **OFFICE OF AIR MANAGEMENT**

**Jet Composites, Inc.**  
**100 South and Meridian Roads**  
**Bluffton, Indiana 46714**

(herein known as the Permittee) is hereby authorized to operate subject to the conditions contained herein, the source described in Section A (Source Summary) of this permit.

This permit is issued in accordance with 326 IAC 2 and 40 CFR Part 70 Appendix A and contains the conditions and provisions specified in 326 IAC 2-7 and 326 IAC 2-1-3.2 as required by 42 U.S.C. 7401, et. seq. (Clean Air Act as amended by the 1990 Clean Air Act Amendments), 40 CFR Part 70.6, IC 13-15 and IC 13-17.

Operation Permit No.: T179-7647-00013	
Issued by: Janet G. McCabe, Assistant Commissioner Office of Air Management	Issuance Date:  June 29, 1999

  

First Significant Permit Modification: 179-12103	Revised pages: 29 and 31
Issued by: Paul Dubenetzky, Chief Office of Air Management	Issuance Date:

#### D.1.6 Monitoring

- (a) Daily inspections shall be performed to verify the placement, integrity and particle loading of the filters. To monitor the performance of the dry filters, weekly observations shall be made of the overspray from the surface coating booth stacks while one or more of the booths are in operation. The Compliance Response Plan shall be followed whenever a condition exists which should result in a response step. Failure to take response steps in accordance with Section C - Compliance Monitoring Plan - Failure to Take Response Steps, shall be considered a violation of this permit.
- (b) Monthly inspections shall be performed of the coating emissions from the stack and the presence of overspray on the rooftops and the nearby ground. The Compliance Response Plan for this unit shall contain troubleshooting contingency and response steps for when a noticeable change in overspray emission, or evidence of overspray emission is observed. The Compliance Response Plan shall be followed whenever a condition exists which should result in a response step. Failure to take response steps in accordance with Section C - Compliance Monitoring Plan - Failure to Take Response Steps, shall be considered a violation of this permit.
- (c) Additional inspections and preventive measures shall be performed as prescribed in the Preventive Maintenance Plan.

#### **Record Keeping and Reporting Requirements [326 IAC 2-7-5(3)] [326 IAC 2-7-19]**

##### D.1.7 Record Keeping Requirements

- (a) To document compliance with Condition D.1.6, the Permittee shall maintain a log of daily overspray observations, daily and weekly inspections, and those additional inspections prescribed by the Preventive Maintenance Plan.
- (c) All records shall be maintained in accordance with Section C - General Record Keeping Requirements, of this permit.

#### D.2.4 Visible Emissions Notations

---

- (a) Daily visible emission notations of the presses stack exhausts shall be performed during normal daylight operations when exhausting to the atmosphere. A trained employee shall record whether emissions are normal or abnormal.
- (b) For processes operated continuously, "normal" means those conditions prevailing, or expected to prevail, eighty percent (80%) of the time the process is in operation, not counting startup or shut down time.
- (c) In the case of batch or discontinuous operations, readings shall be taken during that part of the operation that would normally be expected to cause the greatest emissions.
- (d) A trained employee is an employee who has worked at the plant at least one (1) month and has been trained in the appearance and characteristics of normal visible emissions for that specific process.
- (e) The Compliance Response Plan for this unit shall contain troubleshooting contingency and response steps for when an abnormal emission is observed.

#### **Record Keeping and Reporting Requirement [326 IAC 2-7-5(3)] [326 IAC 2-7-19]**

##### D.2.5 Record Keeping Requirements

- (a) To document compliance with Condition D.2.4, the Permittee shall maintain records of daily visible emission notations of the presses stack exhausts.
- (b) All records shall be maintained in accordance with Section C - General Record Keeping Requirements, of this permit.
